- Clean Sea Net
- LRIT
- THETIS
- MarInfo

Other

- EQUASIS (hosted)

The World Merchant Fleet in 2007: Equasis Statistics

Themes

1. Overview
2. The World Fleet Population
3. Classification Societies
4. P&I
5. Port State Control
6. Trade associations and Industry Vetting Programmes

Tables and graphs

Overview, Size, Type, Flag, Age, Status, Safety performances

Meta data for ship movements in 40 European ports and terminals, 2007

Themes

- Port notifications
- Cargo/hazmat notifications
- MRS/AIS (ship notifications)
- Waste notifications
- Security notifications
- IMO FAL Forms

Findings

- Variety of systems in use
- Cost and benefits of single window difficult to estimate for (implemented in 26 ports)
- No “one size fits all” approach
